

CC MO CERT Order of Operations Disaster Search and Rescue/Triage

1. Report to Incident Command Post

- a. Sign in
- b. Put on PPE (aim for one minute to put on your vest, mask, goggles, helmet, nitrile gloves, and leather gloves.)
- c. ID badge
- d. Equipment assignment

2. Briefing

3. Teams/Team Assignments

4. Send out Team 1

- a. Initial 360 Degree search of the exterior of the structure (clears the way for Team 2 to begin triaging survivors outside) ***REMEMBER TO DO YOUR PAPERWORK***
- b. Send Greens (walking wounded) to Triage Area/Patient Extraction Area
- c. Shut off Gas/Water if necessary (Team 2 is deployed after this)
- d. Initial 360 Degree search of the interior of the structure
- e. Shut off Electric if necessary
- f. Send Greens (walking wounded) to Triage/Patient Extraction Area
- g. Advise survivors who are unable to move that another team is following behind yours
- h. Report back to IC (this can be done via radio) for your next orders

5. Send out Team 2 (as soon as Team 1 heads inside the structure)

- a. "Start from where you stand" **EXCEPTION**-Obvious RED survivors should be your first priority. ***REMEMBER TO DO YOUR PAPERWORK***
- b. After taking care of survivors outside, proceed inside and take care of/extract survivors inside.
- c. Teams 1 and 2 will be working in tandem at this point to move all survivors to the Triage Area/Patient Extraction Area.

6. Report back to IC for further orders once all survivors have been extracted.
